

LASSEN COUNTY ECONOMIC FORECAST

Lassen County is one of the northernmost counties in California. It is roughly the same size as the state of Connecticut. Lassen County has a population of 35,696 people and 10,220 wage and salary jobs. The per capita income in Lassen County is \$20,746, and the average salary per worker is \$40,352. In 2006 the median household income in Lassen County is estimated at \$52,500.

In 2005, wage and salary employment grew by 48 jobs in Lassen County, an increase of 0.5 percent. Non-farm employment gained 118 jobs, a 1.2 percent increase. The unemployment rate was 8.0 percent in 2005.

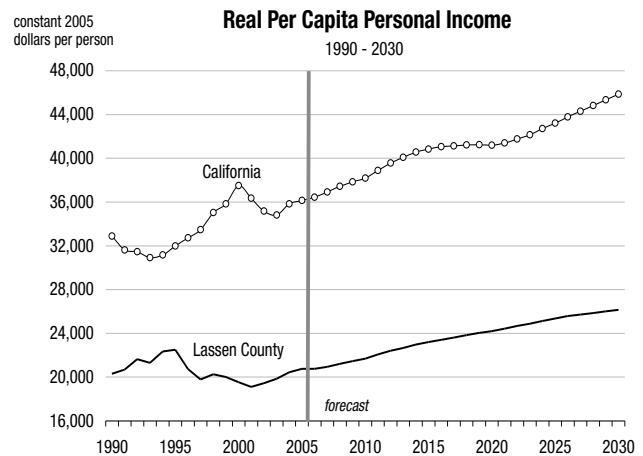

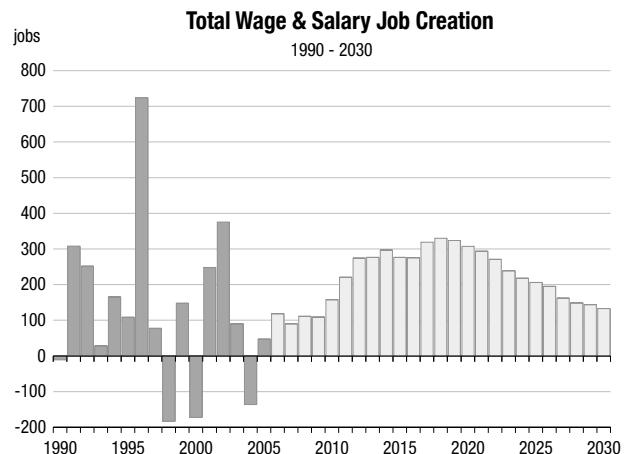

The only sector to produce significant employment gains in 2005 was the public sector which created 230 jobs. Most non-farm sectors in the county lost jobs last year especially the manufacturing and leisure services sectors. Employment declined by 54 jobs in the manufacturing sector to less than 40 workers, down from more than 200 workers in 2003. The largest employment sectors in the county are public institutions. Over 57 percent of all jobs in the county are in the public sector. The penitentiaries and correctional institutions in Susanville are the largest employers in the county. They employ more than 2,500 people, and house over 11,000 inmates.

The population grew in Lassen County at a rate of 0.2 percent in 2005. The only incorporated city in the county is Susanville, which grew 0.2 percent between January 2005 and January 2006. Migration was positive last year with an estimated 255 net migrants entering the county.

Employment growth and population growth are expected to remain positive over the next several years.

FORECAST HIGHLIGHTS

- Total wage and salary job growth is forecast to increase to 1.2 percent in 2006. Over the next five years job growth is expected to average 1.1 percent per year.
- Average salaries adjusted for inflation are currently below the California state average, and will remain so over the forecast period. Inflation adjusted salaries are expected to rise an average of 0.6 percent per year over the next 5 years.
- Between 2006 and 2010, the momentum for employment growth is in leisure services, education and healthcare services, wholesale and retail trade, and government. These sectors account for over 85 percent of all jobs created in the county over the next five years.
- Population growth is expected to be 1.4 percent in 2006. Annual growth in the 2006 to 2010 period also averages 1.4 percent per year.

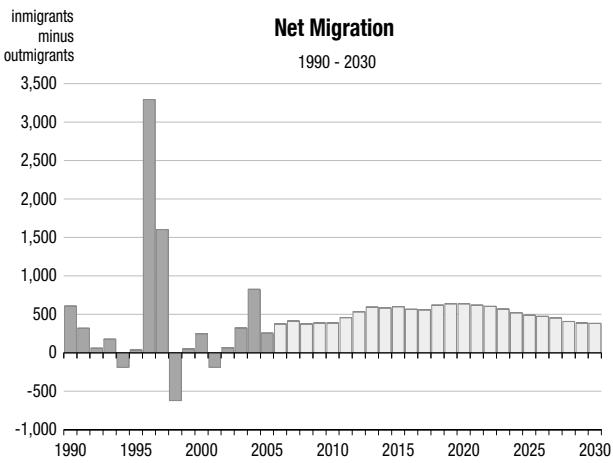

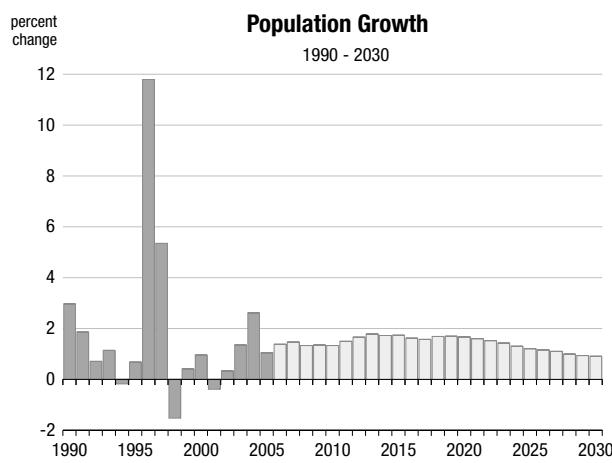

- Net migration is forecast at approximately 400 persons in 2006. Over the next five years migration is expected to average 390 net migrants per year.
- Real per capita income is forecast to increase 0.1 percent in 2006. Over the next five years real per capita incomes are expected to increase an average of 0.8 percent per year.
- Total taxable sales, adjusted for inflation, are forecast to rise at a rate of 4.4 percent in 2006. Over the next five years real taxable sales are forecast to increase 4.6 percent per year.
- Industrial production is forecast to increase 0.6 percent in 2006. Over the next five years the growth rate of industrial production will decline, with total production falling an average of 0.2 percent per year. Total crop production, adjusted for inflation, is expected to increase an average of 3.0 percent per year between 2006 and 2010.
